### **DETAILED ACTION**

1. Claims 1, 4-6, 8, 11, 15, 18, 21, 23, 25 and 26 are pending.

#### ***Claim Rejections - 35 USC § 103***

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 1, 4-6, 8, 11, 15, 18, 21, 23, 25 and 26 are rejected under 35 U.S.C. 103(a) as being unpatentable over Campbell, US 5,749,077.

Campbell discloses, e.g. claim 1, a computer implemented account statement reconciliation comprising associated selected transactions with data records, e.g. 104, where dealer information may be treated as both a single transaction or a plurality of individual transactions that may be displayed via visual indicators, e.g. Figs. 6, 7. Campbell does not disclose the term persistent transaction group and internet. However, as understood, the data records, e.g. 104, of Campbell may be viewed as an official transaction group. Nonetheless, to have provided a persistent transaction group displayed and reconciled within a computer over the Internet for Campbell would have been obvious to one of ordinary skill in the art.

The motivation for providing such would have been to implement common knowledge transaction data using a computer with notoriously well known Internet communication with the parameters disclosed by Campbell. The term association means does not provide any line of demarcation from Campbell as the computer would inherently comprise a processor.

Applicant's REMARKS have been reviewed, but are not convincing. Applicant's claim language, i.e. "persistent transaction group," does not provide a line of demarcation over Campbell. Also, the alternative claim language presented by Applicant does not require each alternative claim recitation, only one thereof. The lexicography of the terms is such that it is not beyond cavil to interpret it is such. As such the Examiner's previous line of reasoning is maintained.

### ***Conclusion***

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
